Subject: Label Amendment – To add an Environmental Hazards section
Product Name: Anthium Pesticidal Disinfecting Spray
EPA Registration Number: 9150-15
Application Date: November 28, 2017
Decision Number: 536656

Dear Ms. Swick:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Page 2 of 2
EPA Reg. No. 9150-15
Decision No. 536656

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Wanda Henson by phone at (703) 308-6345 or via email at henson.wanda@epa.gov

Sincerely,

A handwritten signature in blue ink that reads "Wanda G. Henson" with a stylized flourish at the end.

PRECAUTIONARY STATEMENTS:

Hazards to Human & Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in the original container in a dry, temperature controlled area. Do not store in a manner where cross-contamination with other pesticides, fertilizers, food or feed could occur. If spilled during storage or handling, contain/re-capture spillage and dispose of in accordance with the Pesticide Disposal Instructions listed below.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

[Household/Residential Product Option:] [Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.]

[[Non-Household/Non-Residential Product Option:] [Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying.

[For 1 gallon bottle: Triple rinse as follows: Empty the remaining contents into application equipment or mix tank. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more time.]

[For 5 gallon bottle: Triple rinse as follows. Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll back and forth, ensuring at least one complete revolution, for 0 seconds. Stand the container on its end and tip back and forth several times. Turn the container over onto its other end and tip back and forth several times. Empty the rinsate into application equipment or mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.]]

Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Containers larger than 32 fl. oz.: Application Instructions

[For General Disinfection Applications in Commercial, Industrial, Schools, Apartments and Homes:

Apply product to hard, non-porous surfaces with a commercial low power sprayer, wet mop, sponge, wipe or other suitable application device, thoroughly wetting surfaces. [32 Fl. oz. Size or smaller: **Application Instructions, Shake container well.** Apply thoroughly and evenly, 6-8 inches away from surface, using the SPRAY nozzle position for large areas or STREAM for a concentrated jet on hard to reach areas.] Treated surfaces must remain wet for 10 minutes. Wipe dry with a cloth, sponge or mop or allow to air dry. For heavily soiled surfaces, a pre-cleaning is required.

Rinse all surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. Do not use on utensils, glassware, and dishes.

[Staphylococcus aureus (STAPH) ATCC 6538]

[Salmonella enterica (SALMONELLA) ATCC 10708]

[Trichophyton mentagrophytes ATCC 9533]

[Aspergillus niger ATCC 16404]

MOLD & MILDEW

MOLD AND MILDEW CONTROL AND DEODORIZATIONS (For Schools, hotels, correctional facilities, apartments and Homes)

Anthium™ Pesticidal Disinfecting Spray controls, inhibits and prevents mold and mildew on hard non-porous surfaces. **Anthium™ Pesticidal Disinfecting Spray** works thoroughly so it is an ideal product for controlling and preventing mold in a single treatment. The efficacy makes **Anthium™ Pesticidal Disinfecting Spray** the perfect product for effective single operation for mold and mildew control and prevention.

1. Remove all heavy build-up of gross filth and loose debris from areas to be treated.
2. Apply the product onto the surface: spray 6-8 inches from the surface.
Note: Where mist or vapors may be generated, proper ventilation must be provided in accordance with good ventilation practices. In the absence of proper environmental controls, a NIOSH approved respirator is advised.
3. Make sure the treated area is thoroughly wet for at least 10 minutes and allow to air dry.
4. Repeat every 7 days or more frequently if growth reoccurs.

To Control, Inhibit and Prevent the Growth of Mold & Mildew: Spray 6-8 inches away from a dry, pre-cleaned surface until thoroughly wet. The treated area must remain wet for at least 10 minutes. Allow to air dry. Repeat as needed.

To Deodorize: Spray surfaces as needed to eliminate odors retained on hard surfaces.
